Fanmix - Rented Rooms [Wish We Had More Time]

by [kuzzzma](#)

Summary

Fanmix follows plot of "Emperor Waltz" fanfiction by Vadianna, which I and my co-author Playing_on_shakuhachi translated into Russian.

This is one of the most unusual works - PWP with an unlikely pairing which turns into a tragedy and stays with you for years.

tracklist

01. Brazzaville - Last Days

[instrumental]

02. Tindersticks - Rented Rooms

Through the doors of that rented room
Yeah, we stumbled through
We had so many things started to say we had to get through
We can't afford the time to sit and cry or to wonder why
We haven't got the time for telling lies or to even try

There's only days in between
There's just tomorrow

03. Warhaus - Love's a Stranger

Will you let me in or take it away?
Let me choose you again, tomorrow is a night away

Love's a stranger until I see you again
We want to know how far that it can bend
We just want to know how far that it can bend

They say it's naive how we're passing by
Trying to look the entire world right in the eye

It's so hard to possess
It's a beautiful mess
Time after time

04. Madonna - To Have and Not to Hold

To have and not to hold, so hot yet so cold
My heart is in your hand and yet you never stand
Close enough for me to have my way

To love but not to keep, to laugh not to weep
Your eyes they go right through...
And yet you never do
Anything to make me want to stay
Like a moth to a flame, only I am to blame

05. DeVotchKa - The Last Beat of My Heart

War torn, afraid to speak, we dare to breathe

Majestic, imperial, a bridge of sighs
Solitude sails
In a wave of forgiveness
On angels' wings

Reach out your hands, don't turn your back
Don't walk away
How in the world, can I wish for this?
Never to be torn apart
Close to you 'til the last beat of my heart

At the close of day the sunset cloaks
These words in shadowplay
Here and now, long and loud, my heart cries out
And the naked bone of an echo says
Don't walk away

o6. Yann Tiersen - Fuck Me

I know you know
we're all falling into a deep oblivion
I know you know
we're all falling into a neverending mess

So we have to take care, take care,
and share it, share it, share it together

So let's get undressed, we need to feel it
Please let's get undressed, we need to live it

fuck me fuck me fuck me fuck me,
and make me come again, and make me come again

o7. Patti Smith Group - Because The Night

Take me now baby here as I am
Hold me close, try and understand
Desire is hunger is the fire I breathe
Love is a banquet on which we feed

Come on now try and understand
The way I feel when I'm in your hands
Take my hand come undercover
They can't hurt you now,
Can't hurt you now, can't hurt you now

Because the night belongs to lovers
Because the night belongs to lust
Because the night belongs to lovers
Because the night belongs to us

Love is an angel disguised as lust
Here in our bed until the morning comes
Come on now try and understand
The way I feel under your command
Take my hand as the sun descends

08. Alice Boman - Wish We Had More Time

I am laying here, in the blue light
Waiting for you to turn around
And when you take me in your arms
Make me forget, it's for the last time

I wish we had more time
I wish we had more time

There's no tomorrow
There's no past
There is nothing, but this feeling
And this feeling, I want it to last
I want it to last, I want it to last

I wish we had more time

09. The National - Quiet Light

I'm just so tired of thinking about everything
I'm not afraid of being alone
I just don't know what to do with my time
Between you and me, I thought that it would all last a little while
But I'm learning to lie here in the quiet light
While I watch the sky go from black to grey
Learning how not to die inside a little every time
I think about you and wonder if you are awake

And I'm learning to live without the heartache it gives me
Nothing I wouldn't do for another few minutes
Learning how not to cry every time
There's another sad unbearable morning
But sometimes there's nothing I can do
I can't help it
It's you that I think I hear in the quiet light
Am I crazy?

10. Bruce Soord - One Day I Will Leave You

One day I must leave you,
But we'll still carry on
One day you'll watch me from afar
And know who you are

So don't mourn my passing
I was always passing through
And I'll always be with you

11. Anna Ternheim - When You Were Mine

When you were mine
We lived days one day at a time
Before I knew what loneliness could feel like

We had it all
Then I broke all the rules
Left a trail of ruins in the promise land

Looking back now
The screen turns black and white
You gave me diamonds, I gave you my knife

When you were mine
I aimed where it hurt, crossed every line, left you behind
There's no going back to a place like that
I was so blind
When you were mine

We all need someone we can trust
When you were mine
Soon we'll be turned to dust
When you were mine

12. 岩代太郎 - Until We Meet Again

[instrumental]
