by [bironic](#)

Summary

"Pure electricity. In my pants."

Notes

Music: "Electric" by the DNC feat. Miss Amani

Length: 4:10

Content notes: A lot of flickering lights. Some quickish zooms and pans, if motion effects on still images bother you. A few clips depict nonconsensual zapping.

Dedication: For Club Vivid 2015 & Kink Bingo.

Acknowledgements: Thank you to no_detective, R., corbae, deelaundry, thedeadparrot, unfinishedidea, M., stultiloquentia, sholio, sol_se, jetpack_monkey and a bunch of websites* for helping me identify and/or acquire visuals of electrical and electricity-loving characters. Seriously, I only knew about ten of these characters before starting. All omissions are my fault or my choice; as I had to remind myself while researching and editing, *This is a vid, not an encyclopedia entry.*

*Notably: TV Tropes, Wikipedia, the Kink Bingo Kink Wiki, ComicVine.com, individual blogs and wikis, YouTube and Google Images

Thank you also to jetpack_monkey, stultiloquentia and synn for reviewing drafts: both cheerleading and pointing out what wasn't working.

This vid owes a debt to [Blue](#) by kuwdora, which taught me it was possible to make a good vid on a simple theme, and [Around the Bend](#) by danegen, which demonstrated how to integrate stills with video clips using uncomplicated motion effects.

Juror in background: Oh my.

Song begins

Electric

Feels so electric
Feels so electric

Yes that's my favorite girl
Every time we're together it gets electrical
We attracted to each other like two opposite poles
Pulling towards each other we can't say no
Can't say no and won't say no so
So hot in here I wish I had a window

Electric magnetic energetic and there's nothing else like it
The way her body feels don't wanna ever feel another feeling
Got me exploding like I overloaded baby let's go

You got me feeling fine [?]
You got me feeling all right
You got me

Electric
Baby your body on my body feels so electric
It's 'cause you got it and I want it feels so electric
Can't keep my distance can't resist this is so electric
'lectric.
